01 *GOAL*

The vision

Being diagnosed with cancer sucks, a team of friends in London decided to do something about it and Hack Cancer was born. On October 10th - 11th 2015, forty of the best developers and doctors from around the world, gathered at Google Campus to build products to beat cancer.

Now the community decided to keep up with the project and organize the next chapter, a Cancer Datathon.

What to expect

For 24 hours from April 7th - 8th 2018 the best techies and doctors from around world, will gather at Donostia - San Sebastian to give the best of themselves for cancer patients.

Various multidisciplinary teams will work together to test **new machine learning algorithmic approaches to a known diseases, Cancer.**

LEARN FIT & PREDICT

Data Mining

Data mining implies scanning the data for any relationships, and then when one is found coming up with an interesting explanation.

Machine Learning

Machine Learning ML is about coding programs that automatically adjust their performance from exposure to information encoded in data. This learning is achieved via a parameterized model with tunable parameters automatically adjusted according to a performance criteria.

Machine Learning can be considered a subfield of Artificial Intelligence (AI).

LET'S DO IT!

The institution

Aspanogi, (*ASOCIACIÓN DE PADRES DE NIÑOS ONCOLÓGICOS DE GIPUZKOA*) It is a non-profit organization founded in 1996, thanks to the initiative of 4 affected families. Their main mission is to improve the quality of life of the child affected by cancer and their family and attend to their needs from the moment the disease is diagnosed.

Aspanogi

Support us

Our non-profit organisation relies on sponsors like you who see the value of supporting this kind of charitable and innovative event. Your collaboration will allow us to provide a fantastic venue, judges, talks, food, beverages, prizes and support after the hackathon for the Hack Cancer attendees. Moreover, the cash sponsors will help us reach our goal of raising over 5.000€ for the Aspanogi association.

NEED TO KNOW

Tiers

The diamond tier is exclusive to only one sponsor. In addition, the diamond and platinum sponsors will have the exclusivity of providing a keynote presentation at the opening ceremony, providing information to the scientists about their company.

Other event ideas could include but are not exclusive to; webinars, goodie give aways and any other ideas you have. Contact us if you would like some support / advice about this.

Pre-launch event and Press conference

Bronze, silver, gold, platinum and diamond sponsors will all be invited to a pre-launch event at San Sebastian in April 6th 2018. This event will run through your offering at the event, what to expect, a tour of the venue and some advice on keynote presentations.
